Challenging the Mind. ***Speaking*** the World. ***Leading*** *with* Heart.

Welcome to the 2026–2027 School Year

Dear TIA Families,

Welcome to another extraordinary year at Temecula International Academy.

Whether you are returning to our community or joining us for the first time, thank you for entrusting us with your greatest treasure, your children. We are honored to partner with you in helping them discover who they are, what they are capable of, and how they can make a meaningful impact on the world.

This year is especially significant as we prepare to celebrate TIA's 10th Anniversary. Nearly a decade ago, our school was founded on a bold belief: education should do more than prepare students for college, it should prepare them for life. That vision continues to guide everything we do.

Today, we are proud to be recognized among the region's highest-performing charter schools for our academic achievement and commitment to educating the whole child. Yet our greatest measure of success goes beyond rankings. It is reflected in the confident, compassionate, multilingual, and resilient young people we have the privilege of educating every day.

And as we look toward the future, our mission has never been more relevant.

We are raising children in a world being transformed by artificial intelligence. Information is available in seconds, and technology can accomplish things once unimaginable. In this new era, what will distinguish our children is not simply what they know, but the qualities that make them uniquely human like their character, empathy, creativity, resilience, leadership, and the ability to build meaningful relationships.

That is why social and emotional learning is not an addition to a TIA education; it is woven into its very fabric. Through the Yale University RULER Approach, our students learn to understand and regulate emotions, develop empathy, strengthen relationships, and make thoughtful decisions. We believe these skills are essential to preparing students not only to succeed academically, but to thrive in an increasingly complex world.

Our responsibility extends far beyond teaching standards. We are helping shape future leaders, innovators, problem-solvers, and global citizens. Our goal is for every TIA student to leave us with both an exceptional education and the character and confidence to use it wisely.

Our faculty and staff have worked diligently to prepare for an exciting year ahead, strengthening instruction, expanding student support, and introducing new opportunities designed to help every child learn, grow, and flourish.

As we begin this new school year, I invite you to continue being our partners in this journey. The strongest schools are built when educators and families work together with a shared belief in what children can become.

Thank you for believing in TIA, for trusting us with your children, and for being part of our story.

Together, we are not simply preparing students for the next grade level. We are preparing them for a lifetime of purpose, leadership, and meaningful contribution.

Here's to an extraordinary 2026–2027 school year, and to the beginning of TIA's next decade of excellence!!

With gratitude,

Nadia Hajsaid
Founding Executive Director
Temecula International Academy
